# IELTS LISTENING TECHNIQUES

## LESSON 1 - MAPS AND DIAGRAMS (PART 1)

BY: HAMED MOHAMMAD HOSSEINI

[www.vip-talk.com](http://www.vip-talk.com)

## Strategy

اولین نوع از نقشه‌ها و دیاگرام‌ها، آنهایی هستند که جای خالی‌های آنها روی شکل دیده می‌شوند.

برای پاسخ دادن به این سوالات:

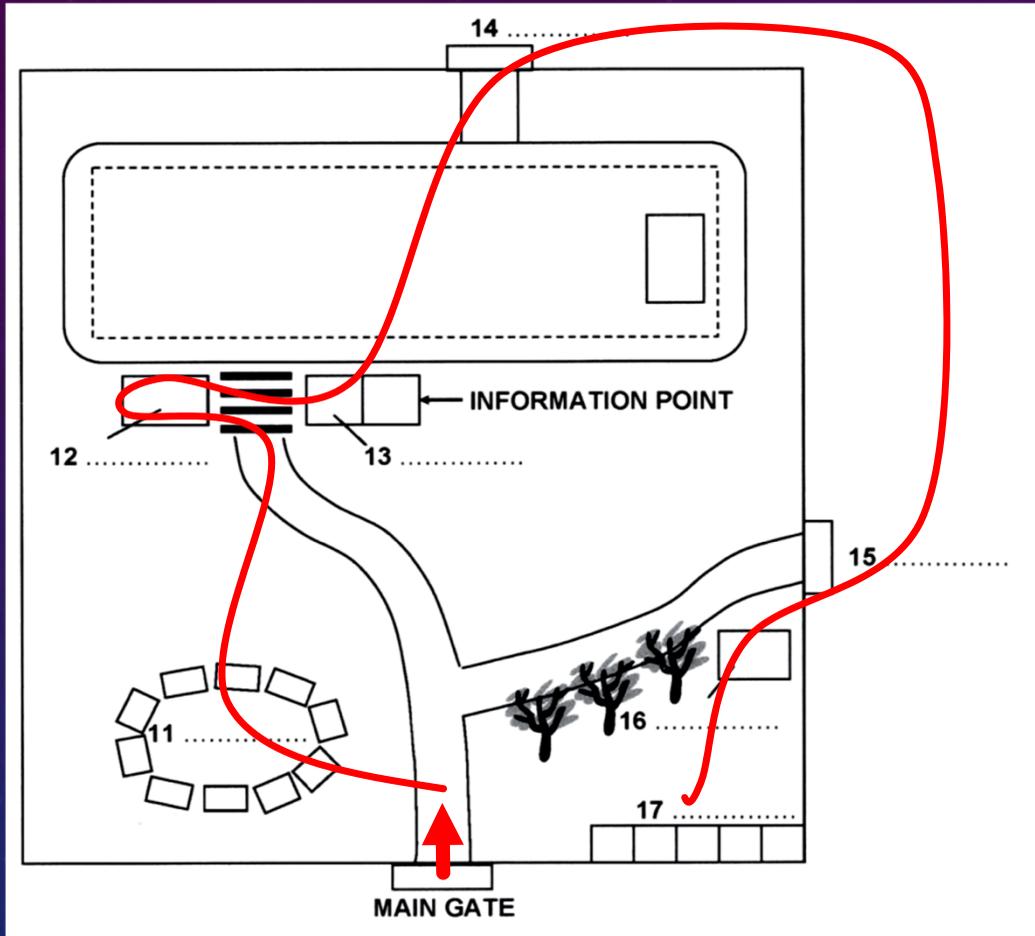

1. در زمان داده شده قبل از پخش با وصل کردن شماره سوالات به هم، سعی کنید مسیر احتمالی را پیش‌بینی کنید (تمام اطلاعات روی شکل خوانده خواهند شد).

۲. اگر سوال کادری دارد که از آنها باید انتخاب کنید، کادر مربوط را نیز بررسی کنید تا لغات آن برایتان آشنا باشد.

۳. در زمان پخش، از مسیر پیش‌بینی شده‌تان استفاده کنید و به همان ترتیب پیش بروید.

۴. سعی کنید آنچه می‌شنوید یادداشت کنید و روی املاء آن و یا پیدا کردن آن از کادر کلمه وقت نگذارید، در انتها، برای اینکار وقت خواهید داشت.

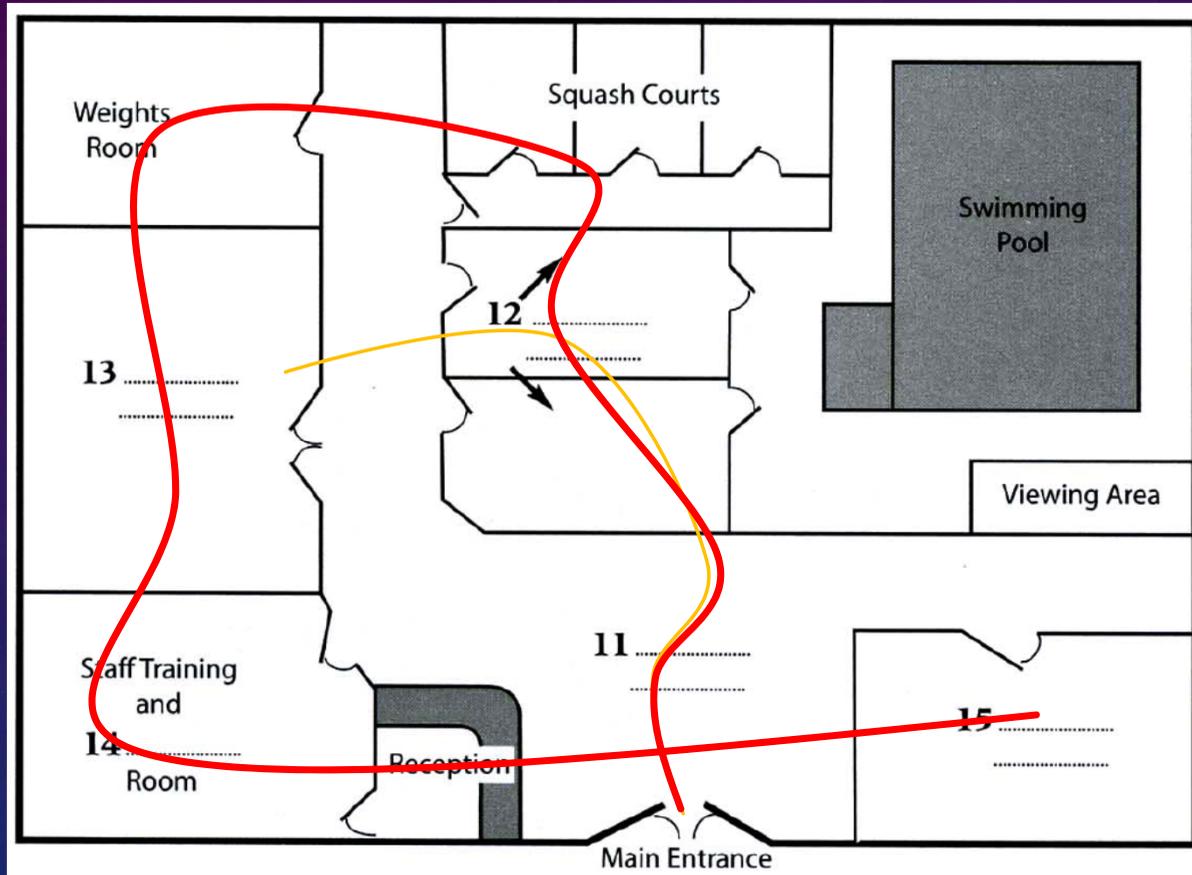

Label the plan of the rock festival site below.

- |   |                      |
|---|----------------------|
| A | art exhibition       |
| B | band entrance        |
| C | car park             |
| D | craft fair           |
| E | exhibitors' entrance |
| F | fringe stage         |
| G | lock-up garages      |
| H | main stage           |
| I | restaurant           |

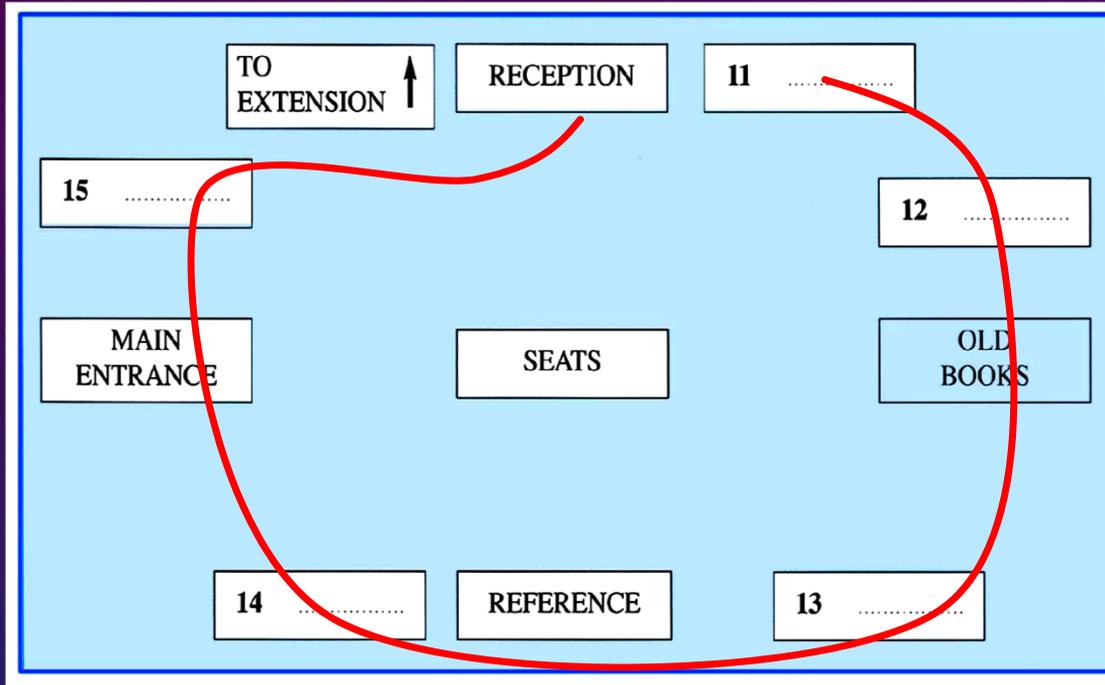

11. It is also the entrance for those taking part in the craft fair...
12. On the left of the steps is the Fringe Stage
13. On the opposite side of the steps is a restaurant, and adjoining that is the main festival information point.
14. The entrance for the rock bands is on the far side
15. ..., you can see a third gate for exhibitors opening onto a side path
16. A little way down the path, before you get to the trees, is the building where the Art Exhibitions is being housed.
17. And finally, there is just one more building divided into lock-up garages.

Label the plan below. Write NO MORE THAN TWO WORDS for each answer.

11. We are here at the meeting point, next to the reception desk.
12. Access to the pool is normally through the changing rooms. To get to these, bear left as you follow the corridor, ...
13. Next to that, directly opposite the changing rooms, there is access to our sports hall.
14. This is important because you'll know where to find us in an emergency, and it doubles as a first aid room in those circumstances.
15. There is another corridor to the right as you come in, and that leads you to the café lounge on one side and the viewing area for the swimming pool on the other.

Label the plan below.

- A Arts section
- B Computers
- C Languages section
- D Law
- E Magazines
- F Science
- G study desks

11. Next to the reception, where you can see those old desks, is where we keep the magazines...

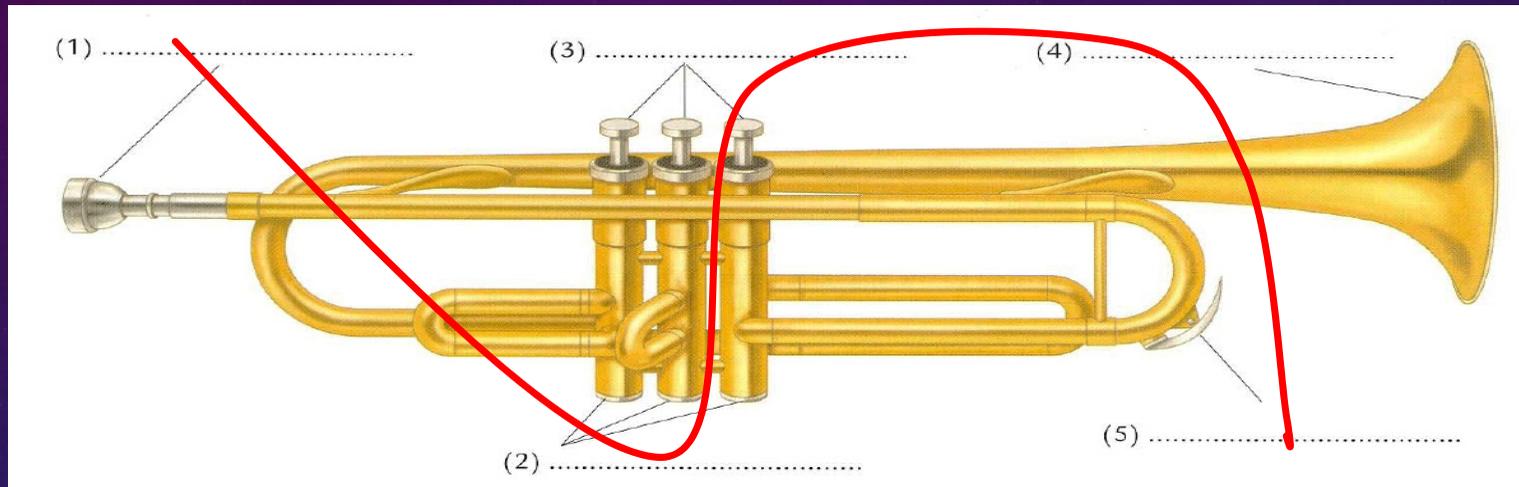

12. That used to be the Science section but now on those shelves you'll find the Arts section.

13. Then in the corner, next to the reference section, is where we thought it was quietest, and away from the phones and printers and things, so we've put the study desks there.

14. As we come back to the main entrance, is the next section, where we used to have the languages. It got very busy and noisy, so when we moved everything round we decided to put the law books here.

15. Then just between reception and the door here is where we decided to put the computers but the computer magazines are in the magazine section...

Label the diagram below. Write NO MORE THAN THREE WORDS for each answer

1. To produce its characteristic sound, the musician blows continuously into the small metal cup on the left called the mouthpiece
2. The air then reaches the feature that distinguishes the trumpet from, for instance, a bugle: the three valves that extend from above the top to below the bottom of the instrument.
3. The musician does this by pressing one of the finger buttons at the top
4. The air then continues its way round the bend in the lead pipe and along to the end at the widest part of the body, known as the bell
5. The result is a 'gurgling' sound from the trumpet, so to avoid this there is a device on the tuning slide called the water key
