

جلسه چهارم: بررسی سوالات شرطی نوع دوم Would و استراتژی پاسخگویی ...

سوالات Would

وقتی چنین سؤالاتی پرسیده میشود، ممتحن فقط در جواب شما به دنبال یک چیز است. جنبه گرامری چنین سؤالاتی خیلی اهمیت دارد. به عنوان یک قانون کلی، اگر در سؤال از would پرسیده شد، حداقل یک نمونه از would / could / might / might در جوابتان باید داشته باشید. برای تمامی سؤالات بهتر است از دومین ساختار شرطی در جوابتان استفاده کنید:

"If + past simple ----- would/could/might + infinitive verb."

Example: If I lived near the sea, I would be able to eat fresh seafood.

If I had the time, I would go for traveling.

از این ساختار برای بیان یک رویداد نامحتمل در زمان حال یا آینده استفاده می شود. مثلاً در مثال بالا، اگر من وقت داشتم یعنی اینکه ندارم و احتمال اینکه پیدا کنم کم است.

وقتی می خواهید دلیل یا مثال های بیشتری بیان کنید مجبورید از ساختارهای شرطی نوع دوم بیشتری نیز استفاده کنید. به عنوان مثال:

"Would you like to move to another city in the future?"

"I would like to change cities if I had the chance, because if I lived in a different city I would make lots of new friends and I could try lots of new kinds of food. Also I might be able to find a well-paid job. "

البته توجه داشته باشید که گاهی نیز می توانید از ساختارهای شرطی منفی استفاده کنید. مثلاً:

"No, I wouldn't like to move to another city, because if I lived in another city, I wouldn't have any friends."

هیچگاه جوابتان را با عباراتی مانند:

I have never thought about it

شروع نکنید. برای شروع میتوانید از این عبارات استفاده نمائید:

"Well, quite honestly I don't think I've ever thought about that, but I guess ...

"Actually, this isn't something that I've ever considered, but in short ...

"I'm not really sure how to put this, but I suppose generally speaking...

به مثال زیر توجه کنید:

☞ "would you like to move to another city?"

"Actually, this isn't something that I've ever considered, but in short I suppose I would possibly consider moving cities, especially if I had the chance to move to a coastal city like Astara. If I lived in a seaside city I would be able to hang out on the beach every day and I would also have the opportunity to get into water sports like scuba-diving and possibly surfing."

تمرینات:

▫ What might be the effects of reduced creativity in society?

▫ What could be done to stop the negative aspects of tourism from happening?

یک مثال دیگه برای شما عزیزان:

1☞ What could be done to stop the negative aspects of tourism from happening?

There could be bunch of things, I guess stricter laws could be introduced. If people didn't obey the

laws, then the consequences might be a financial penalty. You know, an expensive fine, or perhaps throw the offenders into prison for a day or two. That would certainly...I imagine.. have a big effect upon the bad behavior of people visiting a city while on holiday.

🌊 Could you suggest any ways you think the Internet could be improved?

Improve the internet...um...that's a good question. The Internet is fantastic but...well, I guess it could be faster! Yes, it could be faster. At the moment, I have to wait a long time for information to download. It seems to take such a long time for video. I was watching a newscast on a website the other night and it seemed to take so long to download that I closed the screen and went to bed. 😊😞 It would be great if we could somehow make video play over the Internet as fast and as clear as it looks on the TV. Maybe that will happen soon!

سوالات Would سخت نیست، نیاز به تمرین داره و کنارتون هستیم

تمرینات شما عزیزان:

IT'S YOUR TURN: 🖱

Now answer to these Questions...

"Try to write them down Firstly, 'n after that try to Record your Voice... "

- Would you like to move to another city in the future?
- Would you like to change your job?
- Would you like to live near the sea?
- Would you like to learn another foreign language?
- Would you like to be in a film?
- What would you like to change about your city?
- What would you like to change about your school?
- Would you like to change your name?
